HET = Heterosexual Contact | NIR = No identified risk

*Living case data based upon the residence from the most recent report received since 1/1/2009.

*** Data withheld due to low population counts and/or case counts.

§ Multiple imputation was used to estimate and adjust for missing transmission category. Discrepancies in tables between totals and percentages of components are due to rounding.

Data reported through 6/30/2018 from the Enhanced HIV/AIDS Reporting System (eHARS).
